Let's say you own the biggest house in the neighborhood, and you have the most money. 27.5 million dollars. Then over a week you lose 3.5 million dollars, and you dont know if itll keep going. Bad news is, if you take your now 24 million and buy gold, the neighborhood economy cones to a standstill. Also all the smaller houses are watching this.

You guys are underestimating the Jewish love for money. The jew virus doesnt want to kill its host and cash cow. If the economy tanks they cant keep you enslaved, and it puts them at risk for population resistance and change. They will develop a vaccine like Ebola, because they want you enslaved, and they want money to flow. I'd worry about mandatory vaccines and whatever else is in the serum they want to inject you with.
